About Us

As Pipar Biochemical Medical Products Manufacturing and Sales, we produce the best quality medical plastic materials. Our company, which was established in 2007, started its activities in Konya and started selling medical products first to Turkey and then to the whole world. Among the medical product manufacturers, it has become a company known for its quality and reasonable prices in all provinces, especially in Konya. With its growing market share, it has become one of the most important medical equipment manufacturers and exporters in Turkey. Our company Pipar Biochemical Medical Products Manufacturing and Sales, which has been serving for years with the best price, customer satisfaction and on time delivery principles, has managed to take its place among the most recommended and best medical companies among the medical
