## About Us

Proton Piston San ve Tic Ltd Şti has been manufacturing pistons and connecting rods for internal combustion engines, compressors, air conditioning and cooling systems since 2006. In our production facility, connecting rods are manufactured for pistons ranging in diameter from 30-220 mm. We serve in all groups such as Daf, Scania, Mercedes, Volvo, Dorin, Copeland, Bitzer, Lupamat. The products we produce are offered to our customers in domestic and foreign markets.
