About Us

One of our founder, A.Celalettin Şener, who is a pharmacist since 1978 entered the pharmaceutical manufacturing sector at 1988, FARMAKON İLAÇ KİMYA SAN. VE TİC. Inc. With the decision to produce hemodialysis solutions, RENAL ILAC KIMYA VE SAGLIK URUNLERI SAN.PAZ. Inc. was established at 1995.Renal İlaç has stepped into the sector by producing acetate hemodialysis solutions in 3 different formulations and grown continuously. Our company is currently able to meet all the requirements of a dialysis center by supply of bicarbonate hemodialysis solutions, cartridge/bag bicarbonates for hemodialysis, for hemodialysis machines disinfectants Dialyzers AV Blood Lines and Fistula Needles.
Renalox, our innovative product, allows you to produce Hypochlorous Acid, which is an effective disinfectant, in your home
