About Us

RMK Makine provides professional machinery and equipment for cable pulling, cable laying, cable drum transportation, and cable guiding operations. Our product range includes fully hydraulic, tractor-mounted, and manual cable drum trailers, cable drum lifting equipment, cable pulling machines, cable rollers, cable drum stands, and related accessories. We develop solutions according to customer and project requirements, focusing on quality, durability, operational safety, and ease of use. From our facility in Konya, Türkiye, we supply products and provide technical assistance to customers in domestic and international markets. View our latest product catalogue:
