About Us

We, as Saykar Refrigeration are operating in the industrial cooling system industry since 1992. Our primary principle is to deliver best quality products and to satisfy the requirements of our customers. Saykar Refrigeration manufactures cold rooms and display pastry unit with refrigeration and without refrigeration for a wide - range of selling area such as patisseries, restaurants, cafés and bakery products. Saykar Refrigeration has a professional team of designers who conceptually design our modern products as 3D. The installation and the after sales service of the manufactured products is done by professional and experienced team within our organization. Saykar Refrigeration will continue its development and
