About Us

It renews and develops its product range every day by keeping technology and R&D in the foreground in its facilities established in a closed area of 5000 m2. By keeping customer satisfaction and quality understanding at the forefront, Seçkin Merdiven has become a well-known brand both at home and abroad in a short time.Today, it exports 90% of the profile ladders, aluminum ladders, aluminum industrial ladders and aluminum scaffold products that we produce to different markets abroad.
