About Us

WORKSHOP THAT CARRYING TRADITION TO THE FUTURE

Handicrafts, which are among the most permanent and meaningful documents that reflect the social, cultural and economic life style of the society, ensure the continuation of their features that reinforce unity and increase solidarity. For centuries, tribes have expressed all their feelings, joys and sorrows with motifs, and besides giving us an idea about the aesthetics and elegance of the universal culture, its deep-rooted and rich past, they have given us important duties as the heirs of this great heritage.
