About Us

Sıtkı Çınar Tanker company has been serving its customers with over 12 years of experience and has built hundreds of tankers so far. As a reliable and honest manufacturer, we continue to selflessly manufacture tanker requests of all sizes and types from our customers. We offer the highest quality materials and services to our customers at the most affordable prices. We provide all the necessary documents and documents, and we do not cut off our connection with our customers in terms of warranty and after-sales services. At the same time, we are proud to share with you that we hold ISO:9001 2008 and European Union approved tanker manufacturing certificates with ADR.
