## About Us

Our company was established in 2000 to manufacture and market bolts, nuts, and special fasteners. As a leading name in the metal sector, our production facility is located in the Konya Organized Industrial Zone and spans a total area of 17,000 m<sup>2</sup>, with 10,000 m<sup>2</sup> of enclosed space. Here, we manufacture products to global standards using hot forging, cold forging, and machining methods. Tekelioğlu Civata Sanayi Trade Limited Company manufactures bolts and special fasteners entirely by machine, in compliance with Turkish Standards (TSE) and international standards (DIN, ISO, ANSI). A significant part of our production is focused on non-standard bolts, nuts, and special fasteners that are not easily available on the market and require expert manufacturing.
