About Us

TGL Plastik: The Leader in Quality and ReliabilitySince 1995, TGL Plastik has been one of the pioneers in the production of automotive parts, and later expanded into the production of spare parts for agricultural machinery and pesticide equipment. As one of the largest producers in Konya, we have established a strong presence in the global market, exporting to numerous countries with our high-quality standards and innovative manufacturing processes.We continue to prioritize customer satisfaction by providing reliable and durable solutions.
