About Us

Our company was established by our deceased honorable manager Mehmet YAVAŞ in Konya in 2008. In the automotive sub-industry sector, it serves both domestically and internationally with the purchase and sale of spare parts for large commercial vehicles such as trailer, bulk trailer, dumper, tanker and lowbed trailer. In this context, our main product range consists of trailer spare parts and accessories such as original and domestic axles and types, brake equipments, suspension bellows with high quality. Since the satisfaction of our customers and product quality are very significant in line with our principles, we work with the leading companies in the sector that we trust in the spare parts we sell. As a company that abides by the principles of honesty, trust, justice and adheres to its beliefs we have been in the sector for 14
