About Us

Based on the knowledge and experience of many years, our company continues its activities, which it started in the early nineties, with the title of UHUT PASLANMAZ, which is its own name and brand, in 2001. In particular, we produce units, machines and special design products for food, chemistry and special productions with a stainless infrastructure. By taking advantage of the opportunities provided by technology, especially customer satisfaction in all the products we produce; We implement our mission of ease of use, high efficiency, as well as after-sales support and warranty. Our main goal is to continue our activities without compromising our reliable and stable structure that we have gained so far, to reach more customer potential in the country, and to contribute to the amount of foreign currency inflows of our country by increasing
