Hakkımızda

Our company, Voldi Automotive gear industry, started its production life in 1989 in Konya province, Karatay industrial zone, with its own capital. VOLDİ OTOMOTİV continues its production in 2006 in a closed area of 3000 m2 in Konya Organized Industrial Zone with its state-of-the-art machinery and professional staff. In our production, the gear surface hardening process is carried out with an induction machine, which is an example of the latest technology. Our annual production capacity is 110,000 units, and we export 60% of the current production abroad through foreign trade companies. Our company, which has grown rapidly in its export market share, has become the preferred company in exports. Our company is registered under the brand name of VOLDİ OTOMOTİV and has ISO 9001-2008 certificate. The basic principle of our
