Hakkımızda

Our leading company in the seed industry is engaged in the production and sale of forage crops and field crop seeds. Management consists of father and 2 sons. It is a family company that continues to operate with 100% domestic capital, with 50 years of experience from grandfather to grandchild. Our company, which has been growing rapidly with its activities abroad, aims to improve the quality of seeds in Turkey, and my government exchanges information with agricultural institutions and organizations on this subject. Our company is located within the provincial borders of Konya, which is a granary with its administrative building, facilities and warehouses.
