About Us

It started the component manufacturing for the cranes and lifting machines in Konya, as a small workshop, in the year 1978. It continued its development within the course of time and then passed to the production of crane equipments and the first foundations of its today's structure at that date. It expanded the subject of activity as it passed to the factory building which is situated in Konya in the year 1988 and started the complete production of the cranes and lifting machines at first and intensified its works on the subject of projecting and other designs and improved itself further. It started the exportation to a wide range from the Middle Eastern countries such as Egypt, Philistine, Lebanon and Jordan, from the African and Arabian countries such as Algebra, Kuwait, Nigeria and Saudi Arabia to the European countries such as Bulgaria and
